

Together We Build and Support our Osteopathic Family

The DiRenna Foundation for the Advancement of Osteopathic Family Medicine promotes osteopathic family physician leadership and advocates for greater awareness of osteopathic family medicine principles and practices. Your commitment to supporting our foundation is integral to ensuring a vibrant, prosperous future for osteopathic family medicine and improving public health.

Mission and Vision: To create, endow and bestow scholarships, grants and awards to osteopathic students, resident, physicians or other entities which support educational, scientific or charitable activities and the professional development of osteopathic family medicine in Missouri.

Having been founded in 2018 by the Missouri Society of the ACOFP as a unique extension of Missouri's Osteopathic Family Medicine community, the DiRenna Foundation's purpose is to improve the standards of the practice of Osteopathic Family Medicine by raising awareness, providing leadership opportunities, professional development and supporting research through grants, scholarships and awards. The foundation supports and champions those who wish to promote osteopathic family medicine principles and practice.
